Subject: 3-8-17 Lower Duwamish Tribes, Trustees, and Community (TTC) Meeting Materials
Attachments: 0. Draft 3-8-17 TTC Packet v3-1-17 - for distribution.pdf

To the Lower Duwamish Waterway (LDW) Tribes, Trustees, and Community (TTC),
Attached please find an agenda and materials for your meeting on Wednesday, March 8 from 1:00-3:00 PM at the Puget Sound Regional Council (1011 Western Ave, Suite 500, Seattle, WA 98104). Directions to PSRC can be found [here](#).

A few things to note in advance of your March 8 TTC meeting:

1. If you would like to participate in this meeting by phone, please dial (b) (6) and enter the conference ID (b) (6).
2. In your meeting materials, EPA has included powerpoint slides that the Lower Duwamish Waterway Group (LDWG) prepared. These slides summarize key elements of LDWG's draft work plan for sampling this year. The work plan itself is in review. The sampling is to satisfy the [Administrative Order on Consent Amendment #3](#), which reflects Record of Decision (ROD) requirements for baseline sampling of fish, crabs, and clams, as well as sediment and surface water. **If you have questions regarding the approach shown to (a) surface water sampling or (b) fish and crab tissue sampling, please contact [Elly Hale](#). Comments on these topics are requested by March 13, 2017. The comment deadline for other elements of the sampling work plan is March 20, 2017, which was extended a week.** The quick turnaround for work plan comments specific to surface water and fish/crab sampling is to allow for earlier submittal of a detailed sampling plan (QAPP) and for sampling to be completed during the limited sampling window in 2017.
3. We regularly update the TTC contact list, so please let me know if you have any new colleagues that you'd like me to include in the future.

Thank you on behalf of Elly Hale,

Sophie Glass
